\* Satisfies SBCC GE Area A only if ANTH 101L is also completed.

### Additional Program Information

For further information, contact the Counseling Center, 965-0581, Ext. 2285, or Joshua Ramirez, Department Chair, 965-0581, Ext. 3712.

**SBCC AA/AS Degree Graduation Requirements Worksheet (Must complete IA or IB or IC, and II, and III and IV below)**

Santa Barbara City College

# Psychology

## 2017-18

### Associate in Arts Degree in Psychology

Psychology represents an extremely broad discipline, ranging from the study of behavior of the simplest of organisms to the behavior of humans and groups of humans in complicated situations. There is probably no other field that has as many direct and practical applications to human activities.

### Careers in Psychology

The Psychology curriculum at Santa Barbara City College is designed to provide students with courses needed to prepare for transfer as a Psychology major, to offer courses which are a valuable part of general education, to provide support and ancillary skills for many professions that deal with humans, and to offer studies which are meant to be applied to practical everyday living experiences.

Students who complete the Psychology major enter a variety of career fields and/or graduate programs, including business administration, law, recreation, social work, education, counseling, clinical psychology, industrial/organizational psychology, neuroscience, forensic science, communications, health psychology, management, personnel, sports psychology, sales, advertising, marketing and many others. It is important to keep in mind that many of these professional careers require training beyond the undergraduate level, and students with such interests should discuss their plans with a counselor or department adviser as early as possible.
